

**Name: TP53 mouse monoclonal antibody, clone UMAB55**

**Catalog: UM500049**

**Product Data Sheet - UltraMAB**

Gene Name: Homo sapiens tumor protein p53 (TP53), transcript variant 1  
GeneBank accession: NM\_000546  
Isotype: IgG1

Reactivity: Human  
Test application: WB  
Clone Name: Clone UMAB55

**Gene Synonym:** BCC7; LFS1; P53; TRP53

**Validation Data:**

**Guaranteed Applications:** IHC

**Western Blot**

**Suggested Dilutions:** IHC 1:100,

**Immunogen:** Full length human recombinant protein of human TP53 (NP\_000537) produced in HEK293T cell.

**Components:**

- TP53 mouse monoclonal antibody, clone UMAB55 (UM500049)

**Amount:**

UM500049 100ul

**Concentration:** 0.5~1.0 mg/ml (Lot Dependent)

**Storage Condition:** Shipped at 4C. Upon delivery store at -20C. Dilute in PBS (pH7.3) before use. Stable for 12 months from date of receipt. Avoid repeated freeze-thaws.

**Buffer:** PBS (PH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.

**Purification:**

Purified from mouse ascites fluids by affinity chromatography

**Background:**

The protein encoded by this gene is a member of the STAT family of transcription factors. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that translocate to the cell nucleus where they act as transcription activators. This protein is activated by, and mediates the responses of many cell ligands, such as IL2, IL3, IL7 GM-CSF, erythropoietin, thrombopoietin, and different growth hormones. Activation of this protein in myeloma and lymphoma associated with a TEL/JAK2 gene fusion is independent of cell stimulus and has been shown to be essential for the tumorigenesis. The mouse counterpart of this gene is found to induce the expression of BCL2L1/BCL-X(L), which suggests the antiapoptotic function of this gene in cells. [provided by RefSeq, Jul 2008].

**IHC data**

Immunohistochemical staining of paraffin-embedded Human normal breast tissue and breast adenocarcinoma tissue using anti-TP53 mouse monoclonal antibody. (UM500049)
